

## Multilayer Piezoceramic Benders

### Design

Date: 2017-10-26

Page: 1 / 1

### Multilayer design: Design with thermal tension adjustment

### Typical technical data:

#### Monomorph type:

Electrical Voltage	92 V
Deflection stroke	340 µm
Blocking force	1 N
Active free length	19 mm
Electrical capacity	440nF

By using a trimorph type with two active sides stroke and force will double.
