

Multilayer Piezoceramic Benders

Design

Version: 1
Page: 1 / 1

Multilayer design: Design with thermal tension adjustment

Typical technical data

Monomorph type:

Electrical Voltage	92 V
Deflection stroke	340 μm
Blocking force	1 N
Active free length	19 mm
Electrical capacity	440nF

By using a trimorph type with two active sides stroke and force will double.
